

MEMORANDUM

Subject: Cancellation of ITB 24T-DV-113 Salamatof Boiler Room Renovation
Date: 7/18/2024
To: All Plan Holders
From: Rashaad Esters, Procurement Manager

Cook Inlet Housing Authority (CIHA) thanks you for the time invested in reviewing our request and preparing your response to ITB 24P-DV-113. CIHA is rejecting all bids and exercising its right to cancel the solicitation for the following reason(s):

- The supplies, services, or construction are no longer required
- Ambiguous or otherwise inadequate specifications were part of the solicitation
- The solicitation did not provide for consideration of all factors of significance to CIHA
- CIHA can no longer reasonably expect to fund the procurement
- Prices exceed available funds, and it would not be appropriate to adjust the desired specifications to come within available funding limits.
- Further Investigation of the jobsite resulted in an increase in scope. The increase will require time for design and investigation.

CIHA will solicit this project again.

CIHA appreciates and understands that firms went through great effort in preparing a response to the above-mentioned solicitation. We apologize for any inconvenience this may have caused.

Please send any questions to Rashaad Esters, Procurement Manager.
